

What's Happening – May 2019

New Surroundings - In Time for Summer!

The weather is warming up and everyone's turning their attention to spending time in the great outdoors – including your own backyard retreat. No doubt you're looking forward to outdoor barbecues and summertime gatherings with friends and family. A great way to increase the privacy and security of your personal landscape is to add a hedge to the perimeter of your yard. From covering an open fence to creating an informal border or even adding a large privacy screen, a hedge can make a huge difference in the enjoyment of your private sanctuary.

Evergreen Nursery has leafy evergreen or colorful flowering hedges to handle any situation. Spreading plants such as [Bougainvillea](#) or [Trumpet Vine](#) soften the look of stark, open fencing while adding privacy and lushness to your garden. Shrubs like [Boxwood](#) and [Natal Plum](#), or landscape roses like [Knock Out Roses](#) make a beautiful accent border which also serves to direct traffic to your property. If your neighbor's new above-ground pool or parked motor home is a bit too distracting, taller shrubs like [Podocarpus](#), [Texas Privet](#) or [Fraser's Photinia](#) can create an attractive screen. A row of tall palms or [Italian Cypress](#) can add a layer of separation that'll make the rest of the world and its challenges seem a little further away.

Come visit us at Evergreen and let us help you plan your private retreat. With so many possibilities to improve your surroundings, the summer is looking green and serene! So come on down, bring the kids and the dog – we'll be waiting for you right here at Evergreen Nursery.
