

What's Happening – March 2021

Goodbye Winter, Hello Spring

Spring officially begins this month. It's easily the most exciting time of year in the garden - everything seems new again! As always at this time of year, we have lots of new and exciting plants and more here at Evergreen Nursery.

First, our new batch of deciduous [fruit trees](#) is here and ready for you to add to your home orchard, whether it be one tree or many. There's nothing like being able to send the kids into the backyard to pick ripe fruit right off the tree! Choose from a wide variety of fruits like apples, peaches, plums, apricots, and more. Our fruit trees arrive bare root and are planted in our special soil mix when they arrive, so you can be sure they're thriving when you purchase them. Come take a look as they begin to blossom in the nursery. For more inspiration, be sure to check out this year's selection in our flipbook featured in this newsletter.

You might be anxiously awaiting our new selection of roses, too. We have hundreds of new rose plants beginning to leaf out as the weather warms. Whether it's a specific color or fragrance you're after, you'll soon be able to experience roses blooming here in the nursery – the best way to pick your [favorites](#)! We have plenty of spring flowering shrubs to choose from too, like [Viburnum](#), [Escallonia](#), [Lantana](#), [Rosemary](#), and [Indian Hawthorn](#), just to name a few.

Also, be on the lookout near the end of the month for our new batch of tropical houseplants to arrive to liven up your interior or patio areas. Bring the kids and the dog, we'll be waiting for you right here at Evergreen Nursery!
